Skills

- SAP BTP | SAP CAP | SAP FIORI | UI5 | HANA | GenAI | SAP CI | SAP API MANAGEMENT | AWS
- Typescript | JavaScript | MongoDB | PostgreSQL | React | Node | TDD
- Backend | Frontend | Full-Stack | English **(B2)**, Portuguese **(Native)**

Experience

SAP BTP Consultant — **Cidic** — *Remote* — **01/2026 - Present**

- Performed the migration of **SAP UI5** apps in **as-is** format from the **ECC** environment to **S4 HANA.**
- Recreated legacy **SAP UI5** applications in the new **S4** environment.
- Developed **CAP** applications to communicate with **SOAP Web Services**.

SAP BTP Consultant — **Lab2dev** — *Remote* — **08/2022 - Present**

*Lab2dev is a software company with over 200 employees. I contributed directly to projects primarily using SAP services, focusing on maintaining and creating projects involving SAP technologies. Additionally, I worked on projects involving native **SAP Fiori/CAP** development to create enterprise applications, integrations, and automations using the Integration Suite, as well as some **Web** applications using **React**. For the **backend**, I used **Node** and **Nest**.*

- Maintained several existing Web and mobile products that **generate over 2 million reais monthly**, utilizing the latest technologies, including **JavaScript/Typescript, SAP Fiori, SAP CAP, React.js, SAP HANA, PostgreSQL, and Git for version control**.
- Delivered complex integrations with crucial platforms using the **SAP Integration Suite (SAP CPI/API Management)**, ensuring interoperability with third-party systems (such as **VTEX**) and reducing operational risks in mission-critical environments.
- Worked on a **Web** application that managed the entire **API** lifecycle using the **SAP Integration Suite** service, featuring an approval queue for creation, similar to GitHub's approval model. **This resulted in a 90% increase in the efficiency of creating new APIs.**
- Developed internal self-service portals for HR and Time Tracking, allowing employee self-service and integrating time data directly with payroll, often using **SAP** APIs or services for data exchange using tools like **AWS EC2, AWS RDS, Postgres, Redis**.

Frontend Developer — **Garbes Solutions** — *Remote* — **08/2021 - 02/2022**

- Created **Web** applications using technologies such as **React, Vue, Python.**

Education

Bachelor of Engineering — **Estácio** — **EG. 02.2028**

- Bachelor of Software Engineering

Information Technology — **IFMG** — **EG. 12.2021**

- IT Technician - **(Final Grade: 85)**

Certifications

- SAP Certified Associate - Low-Code/No-Code Developer - SAP Build
- SAP Certified - SAP Generative AI Developer
- SAP Certified - SAP Fiori Application Developer
